

EiT - Equines in Therapy

*A Research-Based Training for Equine Professionals (EP) in
Equine Assisted Psychotherapy (EAP) and Learning Programs (EAL)*

January 24-26 (7), 2019 | Torna Hällestad, Sweden

Content: 3 days of theory and practice with an optional day of Equine Assisted Trauma Therapy (EATT). The training includes: theoretical seminars, targeted group discussions, practical exercises with horses.

Objectives: Application of new and existing research in EAP/L and EATT, new and existing knowledge in equine behavior, equine biology, compare and contrast feral horse behavior with domestic horses, equine cognition, equine learning theory, ethics in EAP and equine management.

Learn to: enhance your observational skills of horses (both in and out of EAP), practice self-awareness as an EP in EAP, focus on equine welfare and equine behavior in EAP, understand anthropomorphism – benefits and drawbacks.

We are through the training emphasizing the importance of a skilled and knowledgeable EP in all EAP/L and EATT teams.

For more info on the the EiT training, please visit our website.

REGISTRATION INFORMATION

Fee: 500 € for 3 days, 650 € for 4 days
